Pricing Announcement Metal Products

Effective: Aug 1, 2018

Dear Valued Customer:

Due primarily to recent trade actions by the U.S. Government, the steel and aluminum markets continue to be volatile, resulting in rising prices across a wide range of products and industries including our own.

As a result, we must announce a 7% price increase on metal flashing, effective August 1, 2018.

We continue to monitor the situation and assure you that we are doing everything we can to minimize its impact on our customers. Thank you for your continued support and business.

Yours truly,

Convoy Supply Inc.
