## Pricing Announcement

# Metal Products

---

**Effective: Immediately**

Dear Valued Customer:

As you are likely aware, the U.S. Government introduced new steel and aluminum tariffs on March 23, 2018, which have already had significant effects on the prices of related products. We anticipate that the market will experience ongoing volatility, and expect that the impact of these tariffs will be felt well beyond the steel and aluminum industries.

A wide variety of products in the building supplies industry are composed, either partially or fully, of steel or aluminum, or are dependent upon them, and therefore these factors are impacting the cost of our products. While we do everything we can to mitigate these costs, it will occasionally be necessary to address these fluctuations in the form of price increases or surcharges. As a result, we have to announce at this time that prices on metal flashing, metal fasteners, and metal vents, as well as coil and hand roofing nails, are subject to change without further notice.

We wanted to make you aware of the situation and assure you that we are doing everything we can to minimize the impact of these changes. We thank you for your understanding as we all adapt to this unprecedented challenge

Thank you for your continued support and business.

Yours truly,

Convoy Supply Inc.
