Product Announcement

Residential Shingles – Western Canada

Dear Valued Customer:

Convoy Supply will begin stocking and selling the Malarkey line of residential shingles in Western Canada. Please reach out to your account manager regarding expected availability. For additional information on the Malarkey shingle line, please visit <https://malarkeyroofing.com/residential-roofing>

One aspect of the Malarkey line is the innovative smog-reducing granules, recently named one of Time Magazines Top 50 Best Inventions of 2018. According to studies, the shingles already installed have had the same effect on smog reduction as planting 100,000 trees. Adding Malarkey's product group reflects Convoy Supply's ongoing support of products that contribute to the reduction of greenhouse gases in our atmosphere. You can read more at <https://malarkeyroofing.com/press-releases/pr-11-1-18.html>

As you may be aware, Malarkey recently announced a price increase, effective April 1, 2019. This will be reflected in the pricing once product is available at our branches. For additional information, or with any questions or clarifications, please contact your account manager. Price pages will be available from your account manager shortly.

Thank you for your continued support and business.

Yours truly,

Convoy Supply Ltd.
Surrey, BC
